SAN FRANCISCO DIVISION

Groupe Canal+ S.A., et al.,

Plaintiffs,

v.

NDS Group PLC, et al.,

Defendants.

Case No. C02-01178 (VRW)

DECLARATION OF JOHN NORRIS IN SUPPORT OF DEFENDANTS' OPPOSITION TO MOTION TO EXPEDITE DISCOVERY

Judge: Hon. Vaughn R. Walker

Date of Hearing: April 18, 2002

I, JOHN NORRIS, hereby declare under penalty of perjury pursuant to 28 U.S.C. §1746 as follows:

1. I am Director of Special Projects for NDS Americas, Inc. My duties include investigation of signal piracy on behalf of NDS in North and South America. I have worked in this capacity with the United States Customs Service, numerous United States Attorneys, the Royal Canadian Mounted Police and other law enforcement agencies. I have been called as a witness on behalf of the prosecution in more than a dozen signal piracy cases in the United States and elsewhere. Prior to joining NDS in April, 1996, I was Manager of Special Projects for General Instrument, a position I held for approximately six years, with a two year hiatus during which I managed a Navy security force at Miramar Naval Station. At General Instrument, I was responsible for

investigating and prosecuting satellite signal theft. Prior to joining General Instrument, I held various security management positions in the private sector. Prior to that, I served in the U.S. Army Intelligence as a credentialed Special Agent in counterespionage and counterintelligence, where I held the position of Captain for four years.

2. The information set forth in this declaration is based on my personal knowledge and the opinions stated are my true opinions.

3. I am advised that plaintiffs in this action ("Canal+") have asserted that I was, in part, responsible for providing, to a web site known as www.DR7.com ("DR7"), a file ("SECAROM.ZIP") containing a hexadecimal listing of the content of a read-only memory from a Canal+ smartcard. Prior to this lawsuit, I have never had possession of a file entitled SECAROM.ZIP.

4. After Canal+ filed its lawsuit against NDS, I searched the Internet for a copy of SECAROM.ZIP. On April 2, 2002, I located a file with that name at a website called www.hitecsat.com. I downloaded that file and reviewed its contents. Based upon my review, SECAROM.ZIP appears to be an archive that contains three files: "Readme.txt," "Secarom.txt," and "Secarom.bin." The content of Readme.txt provides, in part, "3/26/99 . . . This File has been downloaded from www.DR7.com." Secarom.txt appears to contain computer code in hexadecimal format. True copies of Readme.txt and Secarom.txt, as downloaded from the hitecsat website, are attached as Norris 1 and Norris 2. Secarom.bin appears to be an object code, or binary, file. That file is not comprehensible to human eyes, and it cannot be printed in any meaningful format.

5. More specifically, I understand that Canal+ asserts that I obtained a copy of SECAROM.ZIP from Reuven Hasak, and that I passed this file to Chris Tarnovsky, who is alleged to have provided the file, in turn, to one "Al Menart" at DR7. I have heard of an individual associated with DR7, but I believe that the correct spelling of his name is "Al Minard." Before April 2, 2002, I have never had possession of SECAROM.ZIP or any of its contents. I did not receive any such information from Reuven Hasak or any other person, and I did not pass SECAROM.ZIP or any of its contents to Chris Tarnovsky

or any other person. Nor did I ask Chris Tarnovsky or any other person to provide SECAROM.ZIP – or any other data about any Canal+ smartcard – to Al Minard or DR7.

6. When I was asked to investigate Canal+'s allegations, I asked Chris Tarnovsky, an engineer who reports to me, whether he had supplied SECAROM.ZIP to DR7 or Al Minard. Mr. Tarnovsky told me that he had not supplied DR7 or Al Minard with a copy of SECAROM.ZIP, any of the contents of SECAROM.ZIP, or any other data about any Canal+ smartcard.

7. Mr. Tarnovsky told me that he had, however, obtained possession of certain Canal+ smartcards in the following manner. Sometime in the fall of 2001, one Gilles Kaehlin, who identified himself to Tarnovsky as the chief of security for Canal+, extended an offer of employment to Mr. Tarnovsky. At the time, Mr. Kaehlin also gave Mr. Tarnovsky some 20 Canal+ smartcards. Mr. Kaehlin asked Mr. Tarnovsky to see if he, Mr. Tarnovsky, could defeat the encryption scheme used in these cards. Mr. Tarnovsky provided me with a statement written in Mr. Kaehlin's hand. A true copy of this statement is attached as Norris 3.

8. I am not fluent in the French language. I am advised that Norris 3 reads in substance as follows:

> 5 October 2001
>
> I, the undersigned Gilles KAEHLIN, director of Canal+, gave this day to Chris TARNOVSKY a total of 24 access cards containing Canal+ technology and software programs used to support the decryption of audio and video services made by this company.
>
> This group of cards has been given for the use of analyzing and testing the cards and hardware and software, in order to bring up to date any eventual weaknesses.
>
> At the end of these tests, Mr. TARNOVSKY promises to return said cards, even if they are damaged, and to keep confidential the results he obtained, he will also not be able to communicate anything to parties outside of the Canal+ group, which is represented by Gilles KAEHLIN.
>
> The Canal+ business will not attack (prosecute) Mr. TARNOVSKY for possessing these cards or for the results of his efforts to analyze the function of the cards

Approved: Chris Tarnovsky

(Signature, illegible)

I declare under penalty of perjury under the laws of The United States of America that the foregoing is true and correct and that this declaration was executed on April 2, 2002, at New York City, New York

Le 05 Octobre 2001

Je soussigné Gilles KAEHLIN directeur des Moyens généraux du groupe CANAL +, avoir remis ce jour à Chris TARNOVSKY un lot de 24 cartes provenant du groupe CANAL +, personnalisées par la société C+ technologies et supportant des programmes permettant de décrypter les programmes audiovisuels du groupe.

Ce lot lui a été remis aux fins d'analyse et de tests tant hardwares que softwares permettant de mettre à jour d'éventuelles faiblesses.

A l'issue de ces tests, Mr TARNOVSKY s'engage à nous faire retour des cartes même endommagées, et à garder confidentiel les résultats obtenus, qu'il ne pourra en aucune façon communiquer à des tiers, en dehors du groupe C+ représenté par Gilles KAEHLIN

Le groupe C+ s'engage pour sa part à ne pas poursuivre Mr TARNOVSKY, tant pour la détention de ces cartes que pour le résultat de ses analyses. Lu et approuvé
