Deputy Clerk

Hi List:

My name is Chris Tarnovskyl I am a hacker/programmer very much into Electronics / Ham Radio / Modems / Video Access Control(!) / and anything else outthere I find interesting. I have been writing in Turbo Pascal and C for 7 years. I also program in ASM. I prefer to write in ASM for all micro-controller apps. I have been "enlisted" in the US Army since 1989 when I finished school.. I repair computers for the Army. I have living in Europe since 1990 in Belgium and now Germany. I will most likely return to Belgium in 1997 (French portion! I speak fluent Francais aussie!)

I have a small LABoratory in my house consisting of a Pentium 100 mhz PCI SCSI2.. 486DX2-66 VLB EIDE.. and the workhorse server(!): 386/87 DX 25! All under LANtastic 6.0. I also have a PIC programmer, and a Logical Devices PROMPro 8X III.

I recently got a 10 card from an English friend! (I helped him install his dish! hehe... It's black-listed.. But good for future ECM's..

I am a finatic when it comes to Sky.. Eagerly awaiting tearing into the code for the card! Currently, I am studying EuroCrypt.. D2Mac.. While waiting for someone else to crack a card open..

In closing, I would just like to say thanks to Markus and Stephan and anyone else who knows me from the 09 Card and say, "Thanks.." for letting me abord! I will surely be of help in the near future!

-Chris Tarnovsky.. (atvscs27@email2.grafenwoehr.army.mil)
N2JTA (Ham Radio Call! (New York!)

P.S. - I am also seeking my BS in Computer Science thru Univ. of Maryland. P.S.S. Markus- Did you check into the dump from the Decoem of invalid cmds?
