Blazer is software that is added to your card and runs as a stand alone fix. You DO NOT need to use it in a "wedge"

BLAZER 3 : NEXT GENERATION

Well, due to popular demand and repeated requests. the Blazer group has released a 3M type card. This card gets you all channels including PPV's and all sports, movies and main events . This card is a totally new piece of sw. It is NOT a copy of another card, so it should be long lasting. This is a very secure 3M which involves a very minimal amount of code change. For anybody who may not be aware of how a 3M works, here is the shortened description. You get them ALL!! No remote buying, no cleaning just viewing!! This card does not include some of the irregular code mods that the other 3M's do, so it has a good chance of outlasting them. We firmly believe that this is the most secure 3M available. This card does NOT marry the receiver.
