URGENT

Please be aware that you will be receiving a telephone call today in respect of both our servers by a Mr Ayi Sarfati whom I hereby authorise as a root admin access operative on my behalf.

Would you please amend your records accordingly and advise the necessary departments. He will be calling you on Security issues, you may of course need to refer him to a different department within DN.

Any billing in respect of DN Services in this matter may be advised direct to myself and accordingly charged in the normal manner by Credit Card which you have on account.

If he needs to communicate with any of the DN departments by email, I will advise independent of this message his email address.

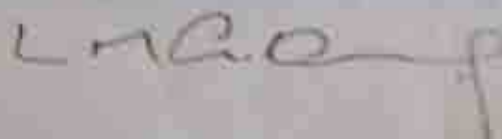

Thanks for your help in this matter Chris, we are just making sure everything is secure and running sweet.

To answer your question about the server(s) being compromised, the answer is No. But after the last debacle I want to make sure we have the very best security employed.

Communication in this matter is to be ~~limited~~ only to me.

Regards and best wishes as always

Lee M Gibling
